Victories Over the Favorites.

### EVEN BREAK OF IT.

Bookies and Talent Divide Money at Ascot Park.

Los Angeles, Cal., Jan. 19.—The talent and the books split even on the day, three favorites out of six coming in first. Cleberation, at 15 to 1, was the longest chance that got first money.

The weather was chilly and the track good. A very bad start killed whatever chance J. Kirby, the favorite, had in the first roce.

Ed O. Marx, manager of the signal corps indoor baseball team, takes exceptions to the statement of Fred Nightingale that the battery team is the champlon of the national guard in indoor baseball. He says the battery has not defined the signal corps every time the two teams have met, and intimates that if Nightingale had been at Sunnyside during the recent Carbon county war "Nighting the recent Carbon county was sold at sheriff's sale ye Meanwhile indoor baseball fans will ask that the two teams get together and set-tle the question on the field of honor-that is the indoor baseball diamond at the

### Case of Too Much Quick.

President Herrman of the national com-nission in his last Bulletin says; "B. S. Quick, claimed by the New York Americans and traded to Toledo, does Americans and traded to Toledo, does not belong to American leaguers, and is remanded to Salt Lake in this finding:

"The attention of the commission was called to this case by Mr. Lucas, president of the Pacific National league, through Mr. Farrell, the secretary of the national association. They called attention to the fact that on the promulgated list of purchased players, issued by the commission in September, the name of player Quick appeared on the list of purchased players by the New York American league club. They further suggested that in view of the fact that one C. H. Griffin had assumed control of the Salt Lake franchise, that the purchase money on account of Quick be paid to him. This not beeing a dispute between two clubs, the matter was taken up by the entire commission. We find that this player has not been purchased by the New York American league club, and therefore direct the secretary of the commission to strike his name from the New York American list, and place it on the Salt Lake reservation list."

McNichels Boosts Salt Lake.

McNichels Boosts Salt Lake.

Frank McNichols, the local baseball player, stopped off in Denver on his way east long enough to give Salt Lake a boost in the baseball line. Here is what he had to say in the Denver Republican: "Frank McNichols, who played on the Infield of the old Denver Wheel club baseball nine, stopped off in Denver yesterday on his way home from Salt Lake to Chicago. He said that the baseball league to take in Salt Lake next year probably would be a four-club affair, local to Utah and Montana. Salt Lake City, Ogden, Butte and Great Falls probably would be the cities to hold the franchises. 'Salt Lake is a good baseball town,' said McNichols, 'and the team probably will do well there. Two or three high-salarled pitchers will be employed. through next season, and then I look to see it enlarged."

### SPORTING NOTES.

Since George Dixon went to England, a little over a year ago, he has made about \$7,000, and has saved the greater part of it. Considering the fact that Dixon has cleared up over \$300,000 in his day, the sum-he has made in England must look small to him, but George has very little of the big sum left. He fights Jem Bowker, Jan. 25, for the bantamweight champion-ship of England, and if he wins will return to America for a short while.

Champion Jim Jeffries picks Young Corbett to defeat Jimmy Britt. In speaking of the match at the Metropole hotel last week he said: "Britt is clever and bright, but lacks a punch. On the other hand the champion is just as clever as Britt, his head gear in as good order and his punch butclasses Britt's wallop two to one. Park City, Jan. 19.—The breaking of a brake on the ore train at the Daly-Judge tunnel resulted in two men being seriously injured. The killing of a horse was the only reason that there was not a whole sale slaughter of miners in the tunnel.

The accident occurred, about 4 o'clock this afternoon when the night shift were coming off. It is the habit of the miners to ride out on a truck; that is the truck is loaded and the rest wark, always starting before the train. The track is on a slamt and while a truck goes only at a moderate rate of speed a heavy ore train requires a brake to keep it from running away.

As usual this morning the track was loaded with men and started out. The bre train of ten cars in charge of Thomas Kay started immediately and had gone but a short distance when the brakes on the rear car broke and the train started. The herse was forced into a gallop and soon changed his pace to a mad race from the runnawy train.

The truckload of men heard the noise and knew what was wrong, so they all jumped and let the truck go on. In a second the train was upon them, but all managed to get into safe places near the timbers except Albert Fields, who was caught by the last car of the train was about the rain started abadity fractured ankle and a mangled hip, together with many severe bruises and printing were referred to the committee on engrossing and oriniting.
